Alchemy Jug

Wondrous Item, Uncommon

This ceramic jug appears to be able to hold a gallon of liquid and weighs 12 pounds whether full or empty. The jug sloshes when it is shaken, even if the jug is empty.
You can take a Magic action and name one liquid from the table to cause the jug to produce the chosen liquid. Afterward, you can uncork the jug as a Utilize action and pour that liquid out, up to 2 gallons per minute. The maximum amount of liquid the jug can produce depends on the liquid you named.
Once the jug starts producing a liquid, it can't produce a different one, or more of one that has reached its maximum, until the next dawn.

Acid	8 ounces
Basic Poison	4 ounces
Beer	4 gallons
Honey	1 gallon
Mayonnaise	2 gallons

Ammunition, +1, +2, or +3

Weapon (Any Ammunition), Uncommon (+1), Rare (+2), or Very Rare (+3)

You have a bonus to attack rolls and damage rolls made with this piece of magic ammunition. The bonus is determined by the rarity of the ammunition. Once it hits a target, the ammunition is no longer magical.
This ammunition is typically found or sold in quantities of ten or twenty pieces. Ten pieces of this ammunition are equivalent in value to a potion of the same rarity.

Dungeon Master's Guide 2024 (BR)

Ammunition of Slaying

Weapon (Any Ammunition), Very Rare

This magic ammunition is meant to slay creatures of a particular type, which the DM chooses or determines randomly by rolling on the table below. If a creature of that type takes damage from the ammunition, the creature makes a DC 17 Constitution saving throw, taking an extra 6d10 Force damage on a failed save or half as much extra damage on a successful one.
After dealing its extra damage to a creature, the ammunition becomes nonmagical.

Amulet of the Planes

Wondrous Item, Very Rare (Requires Attunement)

While wearing this amulet, you can take a Magic action to name a location that you are familiar with on another plane of existence. Then make a DC 15 Intelligence (Arcana) check. On a successful check, you cast *Plane Shift*. On a failed check, you and each creature and object within 15 feet of you travel to a random destination determined by rolling 1d100 and consulting the following table.

1d100	Destination

Animated Shield

Armor (Shield), Very Rare (Requires Attunement)

While holding this Shield, you can take a Bonus Action to cause it to animate. The Shield leaps into the air and hovers in your space to protect you as if you were wielding it, leaving your hands free. The Shield remains animate for 1 minute, until you take a Bonus Action to end this effect, or until you die or have the Incapacitated condition, at which point the Shield falls to the ground or into your hand if you have one free.

Apparatus of Kwalish

Wondrous Item, Legendary

This item first appears to be a sealed iron barrel weighing 500 pounds. The barrel has a hidden catch, which can be found with a successful DC 20 Intelligence (Investigation) check. Releasing the catch unlocks a hatch at one end of the barrel, allowing two Medium or smaller creatures to crawl inside. Ten levers are set in a row at the far end, each in a neutral position, able to move up or down. When certain levers are used, the apparatus transforms to resemble a giant lobster.

The *Apparatus of Kwalish* is a Large object with the following statistics: AC 20; HP 200; Speed 30 ft., Swim 30 ft. (or 0 ft. for both if the legs aren't extended); Immunity to Poison and Psychic damage.

To be used as a vehicle, the apparatus requires one pilot. While the apparatus's hatch is closed, the compartment is airtight and watertight. The compartment holds enough air for 10 hours of breathing, divided by the number of breathing creatures inside.

The apparatus floats on water. It can also go underwater to a depth of 900 feet. Below that, the vehicle takes 2d6 Bludgeoning damage each minute from pressure.

A creature in the compartment can take a Utilize action to move as many as two of the apparatus's levers up or down. After each use, a lever goes back to its neutral position. Each lever, from left to right, functions as shown in the *Apparatus of Kwalish* Levers table.

Lever	Up	Down
1	Legs extend, allowing the apparatus to walk and swim.	Legs retract, reducing the apparatus's Speed and Swim Speed to 0 and making it unable to benefit from bonuses to speed.
2	Forward window shutter opens.	Forward window shutter closes.
3	Side window shutters open (two per side).	Side window shutters close (two per side).
4	Two claws extend from the front side of the apparatus.	The claws retract.
5	Each extended claw makes the following melee attack: +8 to hit, reach 5 ft. *Hit*: 7 (2d6) Bludgeoning damage.	Each extended claw makes the following melee attack: +8 to hit, reach 5 ft. *Hit*: The target has the Grappled condition (escape DC 15).
6	The apparatus walks or swims forward provided its legs are extended.	The apparatus walks or swims backward provided its legs are extended.
7	The apparatus turns 90 degrees counterclockwise provided its legs are extended.	The apparatus turns 90 degrees clockwise provided its legs are extended.
8	Eyelike fixtures emit Bright Light in a 30-foot radius and Dim Light for an additional 30 feet.	The light turns off.
9	The apparatus sinks up to 20 feet if it's in liquid.	The apparatus rises up to 20 feet if it's in liquid.
10	The rear hatch unseals and opens.	The rear hatch closes and seals.

Armor (Any Light, Medium, or Heavy), Rare (Requires Attunement)

While wearing this armor, you have Resistance to one of the following damage types: Bludgeoning, Piercing, or Slashing. The DM chooses the type or determines it randomly.
Curse. This armor is cursed, a fact that is revealed only when the *Identify* spell is cast on the armor or you attune to it. Attuning to the armor curses you until you are targeted by a *Remove Curse* spell or similar magic; removing the armor fails to end the curse. While cursed, you have Vulnerability to two of the three damage types associated with the armor (not the one to which it grants Resistance).

Dungeon Master's Guide 2024 (BR)

Arrow-Catching Shield

Armor (Shield), Rare (Requires Attunement)

You gain a +2 bonus to Armor Class against ranged attack rolls while you wield this Shield. This bonus is in addition to the Shield's normal bonus to AC.

Dungeon Master's Guide 2024 (BR)

Axe of the Dwarvish Lords

Weapon (Battleaxe), Artifact (Requires Attunement)

A young dwarf prince set out to forge a weapon that would be regarded as a symbol of unity among his people. Venturing deep under the mountains, deeper than any dwarf had ever delved, the prince came to the blazing heart of a great volcano. With the aid of Moradin, a god of creation, he first crafted four mighty tools: the Starmetal Pick, the Earthheart Forge, the Anvil of Songs, and the Shaping Hammer. With these tools, he forged the *Axe of the Dwarvish Lords*.

Armed with the Artifact, the prince brought peace to the dwarf clans, ending grudges and answering slights. The clans became allies, and they threw back their enemies and enjoyed an era of prosperity. This young dwarf is remembered as the First King. When he became old, he passed the weapon, which had become his badge of office, to his heir. The rightful inheritors passed the axe on for many generations.

Later, in an era marked by treachery and wickedness, the axe was lost in a bloody civil war fomented by greed for its power and the status it bestowed. Centuries later, the dwarves still search for the axe, and many adventurers have made careers of chasing after rumors and plundering old vaults to find it.

Magic Weapon. The *Axe of the Dwarvish Lords* is a magic weapon that grants a +3 bonus to attack rolls and damage rolls made with it.

When you attack a creature with the axe and roll a 20 on the d20 for the attack roll, the axe deals an extra 20 Slashing damage.

The axe has the Thrown property with a normal range of 20 feet and a long range of 60 feet. When you hit with a ranged attack using this weapon, it deals an extra 1d8 Force damage, or an extra 2d8 Force damage if the target is a creature of the Giant type. Immediately after hitting or missing, the weapon flies back to your hand.

Blessings of Moradin. While attuned to the axe, you gain the following benefits:

Darkvision. You gain Darkvision with a range of 60 feet. If you already have Darkvision, its range increases by 60 feet.

Fortitude of Stone. Your Constitution increases by 2, to a maximum of 20.

Gifts of the Creator. You have proficiency with Brewer's Supplies, Mason's Tools, and Smith's Tools.

One with the Forge. You have Immunity to Poison damage and Resistance to Fire damage.

Sunder. When you hit an object with the axe, the object takes the maximum amount of damage possible.

Conjure Earth Elemental. While holding the axe, you can take a Magic action to summon an **Earth Elemental**. It appears in an unoccupied space you choose within 30 feet of yourself, understands your languages, obeys your commands, and takes its turn immediately after you on your Initiative count. The elemental disappears after 24 hours, when it dies, or when you dismiss it as a Bonus Action. You can't use this property again until the next dawn.

Random Properties. The axe has the following random properties (see the *Dungeon Master's Guide*):

• 2 minor beneficial properties
• 1 major beneficial property
• 2 minor detrimental properties

Travel the Depths. You can take a Magic action to touch the axe to a fixed piece of dwarven stonework and cast *Teleport* from the axe. If your intended destination is underground, there is no chance of a mishap or arriving somewhere unexpected. You can't use this property again until 3 days have passed.

Destroying the Axe. The only way to destroy the axe is to melt it down in the Earthheart Forge, where it was created. It must remain in the burning forge for 50 years before it finally succumbs to the fire and is consumed.

Dungeon Master's Guide 2024

Baba Yaga's Dancing Broom

Wondrous Item, Uncommon (Requires Attunement)

The archfey Baba Yaga crafted many of these magic brooms. No two appear exactly alike. While holding the broom, you can take a Magic action to transform it into an **Animated Broom** under your control. The broom then moves into an unoccupied space as close to you as possible. The broom acts immediately after you on your Initiative count and remains animate until you take a Bonus Action and use a command word to render it inanimate.

On your turn, you can mentally command the animated broom if it is within 30 feet of you and you don't have the Incapacitated condition (no action required). You decide what action the broom takes and where it moves during its next turn, or you can issue it a general command, such as to attack your enemies or guard a location.

If the broom is reduced to 0 Hit Points, it shatters and is destroyed. If the broom reverts to its inanimate form before losing all its Hit Points, it regains all of them.

Dungeon Master's Guide 2024

Bag of Beans

Wondrous Item, Rare

This heavy cloth bag contains 3d4 dry beans when found. The bag weighs half a pound regardless of how many beans it contains and becomes a nonmagical item when it no longer contains any beans.

If you dump one or more beans out of the bag, they explode in a 10-foot-radius Sphere centered on them. All the dumped beans are destroyed in the explosion, and each creature in the Sphere, including you, makes a DC 15 Dexterity saving throw, taking 5d4 Force damage on a failed save or half as much damage on a successful one.

If you remove a bean from the bag, plant it in dirt or sand, and then water it, the bean disappears as it produces an effect 1 minute later from the ground where it was planted. The DM can choose an effect from the following table or determine it randomly.

1d100	Effect
01	5d4 toadstools sprout. If a creature eats a toadstool, roll any die. On an odd roll, the eater must succeed on a DC 15 Constitution saving throw or take 5d6 Poison damage and have the Poisoned condition for 1 hour. On an even roll, the eater gains 5d6 Temporary Hit Points for 1 hour.
02–10	A geyser erupts and spouts water, beer, mayonnaise, tea, vinegar, wine, or oil (DM's choice) 30 feet into the air for 1d4 minutes.
11–20	A **Treant** sprouts. Roll any die. On an odd roll, the treant is Chaotic Evil. On an even roll, the treant is Chaotic Good.
21–30	An animate but immobile stone statue in your likeness rises and makes verbal threats against you. If you leave it and others come near, it describes you as the most heinous of villains and directs the newcomers to find and attack you. If you are on the same plane of existence as the statue, it knows where you are. The statue becomes inanimate after 24 hours.
31–40	A campfire with green flames springs forth and burns for 24 hours or until it is extinguished.
41–50	Three **Shrieker Fungi** sprout.
51–60	1d4 + 4 bright-pink toads crawl forth. Whenever a toad is touched, it transforms into a Large or smaller monster of the DM's choice that acts in accordance with its alignment and nature. The monster remains for 1 minute, then disappears in a puff of bright-pink smoke.
61–70	A hungry **Bulette** burrows up and attacks.
71–80	A fruit tree grows. It has 1d10 + 20 fruit, 1d8 of which act as randomly determined potions. The tree vanishes after 1 hour. Picked fruit remains, retaining any magic for 30 days.
81–90	A nest of 1d4 + 3 rainbow-colored eggs springs up. Any creature that eats an egg makes a DC 20 Constitution saving throw. On a successful save, a creature permanently increases its lowest ability score by 1, randomly choosing among equally low scores. On a failed save, the creature takes 10d6 Force damage from an internal explosion.
91–95	A pyramid with a 60-foot-square base bursts upward. Inside is a burial chamber containing a **Mummy**, a **Mummy Lord**, or some other Undead of the DM's choice. Its sarcophagus contains treasure of the DM's choice.
96–00	A giant beanstalk sprouts, growing to a height of the DM's choice. The top leads where the DM chooses, such as to a great view, a cloud giant's castle, or another plane of existence.

Dungeon Master's Guide 2024 (BR)

Bag of Devouring

Wondrous Item, Very Rare

This bag resembles a *Bag of Holding* but is a feeding orifice for a gigantic extradimensional creature. Turning the bag inside out closes the orifice.

The extradimensional creature attached to the bag can sense whatever is placed inside the bag. Animal or vegetable matter placed wholly in the bag is devoured and lost forever. When part of a living creature is placed in the bag, as happens when someone reaches inside it, there is a 50 percent chance that the creature is pulled inside the bag. A creature inside the bag can take an action to try to escape, doing so with a successful DC 15 Strength (Athletics) check. Another creature can take an action to reach into the bag to pull a creature out, doing so with a successful DC 20 Strength (Athletics) check, provided the puller isn't pulled inside the bag first. Any creature that starts its turn inside the bag is devoured, its body destroyed.

Inanimate objects can be stored in the bag, which can hold a cubic foot of such material. However, once each day, the bag swallows any objects inside it and spits them out into another plane of existence. The DM determines the time and plane.

If the bag is pierced or torn, it is destroyed, and anything contained within it is transported to a random location on the Astral Plane.

Dungeon Master's Guide 2024 (BR)

Bag of Holding

Wondrous Item, Uncommon

This bag has an interior space considerably larger than its outside dimensions—roughly 2 feet square and 4 feet deep on the inside. The bag can hold up to 500 pounds, not exceeding a volume of 64 cubic feet. The bag weighs 5 pounds, regardless of its contents. Retrieving an item from the bag requires a Utilize action.

If the bag is overloaded, pierced, or torn, it is destroyed, and its contents are scattered in the Astral Plane. If the bag is turned inside out, its contents spill forth unharmed, but the bag must be put right before it can be used again. The bag holds enough air for 10 minutes of breathing, divided by the number of breathing creatures inside.

Placing a *Bag of Holding* inside an extradimensional space created by a *Heward's Handy Haversack*, *Portable Hole*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within a 10-foot-radius Sphere centered on the gate is sucked through it to a random location on the Astral Plane. The gate then closes. The gate is one-way and can't be reopened.

Dungeon Master's Guide 2024 (BR)

Bag of Tricks

Wondrous Item, Uncommon

This bag made from gray, rust, or tan cloth appears empty. Reaching inside the bag, however, reveals the presence of a small, fuzzy object.
You can take a Magic action to pull the fuzzy object from the bag and throw it up to 20 feet. When the object lands, it transforms into a creature you determine by rolling on the table that corresponds to the bag's color. See the *Monster Manual* for the creature's stat block. The creature vanishes at the next dawn or when it is reduced to 0 Hit Points.
The creature is Friendly to you and your allies, and it acts immediately after you on your Initiative count. You can take a Bonus Action to command how the creature moves and what action it takes on its next turn, such as attacking an enemy. In the absence of such orders, the creature acts in a fashion appropriate to its nature.
Once three fuzzy objects have been pulled from the bag, the bag can't be used again until the next dawn.

Bead of Force

Wondrous Item, Rare

This small black sphere measures 3/4 of an inch in diameter and weighs an ounce. Typically, 1d4 + 4 *Beads of Force* are found together.
You can take a Magic action to throw the bead up to 60 feet. The bead explodes in a 10-foot-radius Sphere on impact and is destroyed. Each creature in the Sphere must succeed on a DC 15 Dexterity saving throw or take 5d4 Force damage. A sphere of transparent force then encloses the area for 1 minute. Any creature that failed the save and is completely within the area is trapped inside this sphere. Creatures that succeeded on the save or are partially within the area are pushed away from the center of the sphere until they are no longer inside it. Only breathable air can pass through the sphere's wall. No attack or other effect can pass through.
An enclosed creature can take a Utilize action to push against the sphere's wall, moving the sphere up to half the creature's Speed. The sphere can be picked up, and its magic causes it to weigh only 1 pound, regardless of the weight of creatures inside.

Dwarvish. You know Dwarvish.
Friend of Dwarvenkind. You have Advantage on Charisma (Persuasion) checks made to interact with dwarves and duergar.
Toughness. Your Constitution increases by 2, to a maximum of 20.
In addition, while attuned to the belt, you have a 50 percent chance each day at dawn of growing a full beard if you can grow one, or a thicker beard if you already have one.

Darkvision. You have Darkvision with a range of 60 feet.
Resilience. You have Resistance to Poison damage. You also have Advantage on saving throws you make to avoid or end the Poisoned condition.

Belt of Giant Strength

Wondrous Item, Rarity Varies (Requires Attunement)

Belt	Str.	Rarity
Belt of Giant Strength (hill)	21	Rare
Belt of Giant Strength (frost) or Belt of Giant Strength (stone)	23	Very Rare

Dungeon Master's Guide 2024 (BR)

Berserker Axe

Weapon (Battleaxe, Greataxe, or Halberd), Rare (Requires Attunement)

You gain a +1 bonus to attack rolls and damage rolls made with this magic weapon. In addition, while you are attuned to this weapon, your Hit Point maximum increases by 1 for each level you have attained.

Curse. This weapon is cursed, and becoming attuned to it extends the curse to you. As long as you remain cursed, you are unwilling to part with the weapon, keeping it within reach at all times. You also have Disadvantage on attack rolls with weapons other than this one.

Whenever another creature damages you while the weapon is in your possession, you must succeed on a DC 15 Wisdom saving throw or go berserk. This berserk state ends when you start your turn and there are no creatures within 60 feet of you that you can see or hear.

While berserk, you regard the creature nearest to you that you can see or hear as your enemy. If there are multiple possible creatures, choose one at random. On each of your turns, you must move as close to the creature as possible and take the Attack action, targeting the creature. If you're unable to get close enough to the creature to attack it with the weapon, your turn ends after you've used up all your available movement. If the creature dies or can no longer be seen or heard by you, the next nearest creature that you can see or hear becomes your new target.

Dungeon Master's Guide 2024

Book of Exalted Deeds

Wondrous Item, Artifact (Requires Attunement)

The definitive treatise on all that is good in the multiverse, the *Book of Exalted Deeds* figures prominently in many religions. Rather than being a scripture devoted to a particular faith, the book's authors filled the pages with their own visions of true virtue, providing guidance for defeating evil.

The *Book of Exalted Deeds* rarely lingers in one place. As soon as the book is read, it vanishes to some other corner of the multiverse where its moral guidance can bring hope to an endangered world. Although attempts have been made to copy the work, efforts to do so fail to capture its magical nature or translate the benefits it offers to those pure of heart and firm of purpose.

A heavy clasp, wrought to look like angel wings, keeps the book's contents secure. Only a creature that is attuned to the book can release the clasp that holds it shut. Once the book is opened, the attuned creature must spend 80 hours reading and studying the book to digest its contents and gain its benefits.

Other creatures that peruse the book's open pages can read the text but glean no deeper meaning and reap no benefits. A Fiend, an Undead, or a servant of a god from the Lower Planes that tries to read from the book takes 24d6 Radiant damage. This damage ignores Resistance and Immunity, and it can't be reduced or avoided by any means. A creature reduced to 0 Hit Points by this damage disappears in a flash and is destroyed, leaving its possessions behind. The book then vanishes, and the creature's Attunement to it ends.

Benefits granted by the *Book of Exalted Deeds* last only as long as you strive to do good. If you fail to perform at least one act of kindness or generosity within the span of 10 days, or if you willingly perform an evil act, you lose all the benefits granted by the book.

Celestial Calm. While attuned to the book, you have Immunity to the Charmed and Frightened conditions and Resistance to Psychic damage. These benefits become permanent after you spend the requisite amount of time reading and studying the book.

Divine Wisdom. After you spend the requisite amount of time reading and studying the book, your Wisdom increases by 2, to a maximum of 24. You can't gain this benefit from the book more than once.

Enlightened Magic. After you spend the requisite amount of time reading and studying the book, any spell slot you expend to cast a spell counts as a spell slot of one level higher.

Halo. After you spend the requisite amount of time reading and studying the book, you gain a protective halo. This halo sheds Bright Light in a 10-foot radius and Dim Light for an additional 10 feet. You can dismiss or manifest the halo as a Bonus Action. While present, the halo gives you Advantage on Charisma (Persuasion) checks. In addition, Fiends and Undead within the halo's Bright Light make attack rolls against you with Disadvantage.

Random Properties. The *Book of Exalted Deeds* has the following random properties (see the *Dungeon Master's Guide*):

- 2 minor beneficial properties
- 2 major beneficial properties

Destroying the Book. The *Book of Exalted Deeds* can't be destroyed. However, drowning the book in the River Styx removes all writing and imagery from its pages and renders the book powerless for 1d100 years.

Book of Vile Darkness

Wondrous Item, Artifact (Requires Attunement)

The contents of this foul manuscript are the meat and drink of the wicked. It contains knowledge so horrid that to even glimpse the scrawled pages invites doom.

Most believe the lich-god Vecna authored the *Book of Vile Darkness*. He recorded in its pages every horrid idea, every corrupt thought, and every example of foul magic he came across or devised.

Other practitioners of evil have added their own input to the book's catalog of vile knowledge. Their additions are clear, for the writers of later works stitched whatever they were writing into the tome or, in some cases, made notations and additions to existing text. There are places where pages are missing, torn, or covered so completely with ink, blood, and scratches that the original text can't be divined.

Nature can't abide the book's presence. Ordinary plants wither in its presence, common animals are unwilling to approach it, and the book gradually destroys whatever it touches. Even stone cracks and turns to powder if the book rests on it long enough.

Whenever a creature that isn't a Fiend or an Undead attunes to the *Book of Vile Darkness*, that creature makes a DC 17 Charisma saving throw. On a failed save, the creature is magically transformed into a Larva under the DM's control. Only a *Wish* spell can reverse this vile transformation.

A creature attuned to the book must spend 80 hours reading and studying it to digest its contents and use its Adjusted Ability Scores, Tireless Form, Spells, Vile Lore, and Vile Speech properties.

The *Book of Vile Darkness* remains with you only as long as you strive to work evil in the world. If you fail to perform at least one evil act within the span of 10 days, or if you willingly perform a good act, the book disappears, your Attunement to it ends immediately, and you lose all benefits granted by it. If you die while attuned to the book, an entity of great evil claims your soul. You can't be restored to life by any means while your soul remains imprisoned.

Adjusted Ability Scores. One ability score of your choice increases by 2, to a maximum of 24. Another ability score of your choice decreases by 2, to a minimum of 3. The book can't adjust your ability scores again.

Tireless Form. While the book is on your person, you have Immunity to the Exhaustion condition.

Random Properties. The *Book of Vile Darkness* has the following random properties (see the *Dungeon Master's Guide*):

• 3 minor beneficial properties
• 1 major beneficial property
• 3 minor detrimental properties
• 2 major detrimental properties

Spells. While attuned to the book and holding it, you can cast the following spells (save DC 18) from it:

• *Animate Dead*
• *Circle of Death*
• *Dominate Monster*
• *Finger of Death*

Once you use the book to cast a spell, you can't cast that spell again from it until the next dawn.

Vile Lore. You can reference the *Book of Vile Darkness* whenever you make an Intelligence check to recall information about some aspect of evil, such as lore about demons. When you do so, you have Advantage on that check.

At the DM's discretion, the book might reveal secrets no mortal should know, such as the true names of powerful Fiends, foul rites that allow one to transform into a death knight or lich, or long-lost spells crafted by beings so evil their names ought never to be spoken aloud.

Vile Speech. While the book is on your person, you can take a Magic action to recite words from its pages in a foul, dead language. Each time you do so, you take 1d12 Psychic damage, and each creature within 15 feet of you takes 3d6 Psychic damage unless the creature is a Fiend or an Undead.

Destroying the Book. The *Book of Vile Darkness* allows pages to be torn from it, but any evil lore contained on those pages finds its way back into the book eventually, usually when a new author adds pages to the tome.

If a solar tears the book in two, the book is destroyed for 1d100 years, after which it re-forms in some far corner of the multiverse.

A creature attuned to the book for 100 years can unearth a phrase hidden in the original text that, when translated to Celestial and spoken aloud, destroys both the speaker and the book in a flash of radiance. However, as long as evil exists in the multiverse, the book re-forms 1d10 × 100 years later.

Daern's Instant Fortress

Wondrous Item, Rare (Requires Attunement)

As a Magic action, you can place this 1-inch adamantine statuette on the ground and, using a command word, cause it to grow rapidly into a square adamantine tower. Repeating the command word causes the tower to revert to statuette form, which works only if the tower is empty. Each creature in the area where the tower appears is pushed to an unoccupied space outside but next to the tower. Objects in the area that aren't being worn or carried are also pushed clear of the tower.

The tower is 20 feet on a side and 30 feet high, with arrow slits on all sides and a battlement atop it. Its interior is divided into two floors, with a ladder, staircase, or ramp (your choice) connecting them. This ladder, staircase, or ramp ends at a trapdoor leading to the roof. When created, the tower has a single door at ground level on the side facing you. The door opens only at your command, which you can issue as a Bonus Action. It is immune to the *Knock* spell and similar magic.

Magic prevents the tower from being tipped over. The roof, the door, and the walls each have AC 20; HP 100; Immunity to Bludgeoning, Piercing, and Slashing damage except that which is dealt by siege equipment; and Resistance to all other damage. Shrinking the tower back down to statuette form doesn't repair damage to the tower. Only a *Wish* spell can repair the tower (this use of the spell counts as replicating a spell of level 8 or lower). Each casting of *Wish* causes the tower to regain all its Hit Points.

Dungeon Master's Guide 2024 (BR)

Dancing Sword

Weapon (Greatsword, Longsword, Rapier, Scimitar, or Shortsword), Very Rare (Requires Attunement)

You can take a Bonus Action to toss this magic weapon into the air. When you do so, the weapon begins to hover, flies up to 30 feet, and attacks one creature of your choice within 5 feet of itself. The weapon uses your attack roll and adds your ability modifier to damage rolls.

While the weapon hovers, you can take a Bonus Action to cause it to fly up to 30 feet to another spot within 30 feet of you. As part of the same Bonus Action, you can cause the weapon to attack one creature within 5 feet of the weapon.

After the hovering weapon attacks for the fourth time, it flies back to you and tries to return to your hand. If you have no hand free, the weapon falls to the ground in your space. If the weapon has no unobstructed path to you, it moves as close to you as it can and then falls to the ground. It also ceases to hover if you grasp it or are more than 30 feet away from it.

On a failed check, the spell fails, and the action used to cast it is wasted. In either case, you can't use this property again until you finish a Long Rest.

Decanter of Endless Water

Wondrous Item, Uncommon

This stoppered flask sloshes when shaken, as if it contains water. The decanter weighs 2 pounds.

You can take a Magic action to remove the stopper and issue one of three command words, whereupon an amount of fresh water or salt water (your choice) pours out of the flask. The water stops pouring out at the start of your next turn. Choose from the following command words:

Splash. The decanter produces 1 gallon of water.

Fountain. The decanter produces 5 gallons of water.

Geyser. The decanter produces 30 gallons of water that gushes forth in a Line 30 feet long and 1 foot wide. If you're holding the decanter, you can aim the geyser in one direction (no action required). One creature of your choice in the Line must succeed on a DC 13 Strength saving throw or take 1d4 Bludgeoning damage and have the Prone condition. Instead of a creature, you can target one object in the Line that isn't being worn or carried and that weighs no more than 200 pounds. The object is knocked over by the geyser.

Deck of Illusions

Wondrous Item, Uncommon

This box contains a set of cards. A full deck has 34 cards: 32 depicting specific creatures and two with a mirrored surface. A deck found as treasure is usually missing 1d20 - 1 cards.

The magic of the deck functions only if its cards are drawn at random. You can take a Magic action to draw a card at random from the deck and throw it to the ground at a point within 30 feet of yourself. An illusion of a creature, determined by rolling on the table, forms over the thrown card and remains until dispelled. The illusory creature created by the card looks and behaves like a real creature of its kind, except that it can do no harm. While you are within 120 feet of the illusory creature and can see it, you can take a Magic action to move it anywhere within 30 feet of its card.

Any physical interaction with the illusory creature reveals it to be false, because objects pass through it. A creature that takes a Study action to visually inspect the illusory creature identifies it as an illusion with a successful DC 15 Intelligence (Investigation) check. The illusion lasts until its card is moved or the illusion is dispelled (using a *Dispel Magic* spell or a similar effect). When the illusion ends, the image on its card disappears, and that card can't be used again.

Deck of Many Things

Wondrous Item, Legendary

Usually found in a box or pouch, this deck contains a number of cards made of ivory or vellum. Most (75 percent) of these decks have thirteen cards, but some have twenty-two. Use the appropriate column of the table when randomly determining cards drawn from the deck.

Before you draw a card, you must declare how many cards you intend to draw and then draw them randomly. Any cards drawn in excess of this number have no effect. Otherwise, as soon as you draw a card from the deck, its magic takes effect. You must draw each card no more than 1 hour after the previous draw. If you fail to draw the chosen number, the remaining number of cards fly from the deck on their own and take effect all at once.

Once a card is drawn, it disappears. Unless the card is the Fool or Jester, the card reappears in the deck, making it possible to draw the same card twice. (Once the Fool or Jester has left the deck, reroll on the table if that card comes up again.)

Each card's effect is described below.

Balance. You can increase one of your ability scores by 2, to a maximum of 22, provided you also decrease another one of your ability scores by 2. You can't decrease an ability that has a score of 5 or lower. Alternatively, you can choose not to adjust your ability scores, in which case this card has no effect.

Comet. The next time you enter combat against one or more Hostile creatures, you can select one of them as your foe when you roll Initiative. If you reduce your foe to 0 Hit Points during that combat, you have Advantage on Death Saving Throws for 1 year. If someone else reduces your chosen foe to 0 Hit Points or you don't choose a foe, this card has no effect.

Donjon. You disappear and become entombed in a state of suspended animation in an extradimensional sphere. Everything you're wearing and carrying disappears with you except for Artifacts, which stay behind in the space you occupied when you disappeared. You remain imprisoned until you are found and removed from the sphere. You can't be located by any Divination magic, but a *Wish* spell can reveal the location of your prison. You draw no more cards.

Euryale. The card's medusa-like visage curses you. You take a −2 penalty to saving throws while cursed in this way. Only a god or the

magic of the Fates card can end this curse.
Fates. Reality's fabric unravels and spins anew, allowing you to avoid or erase one event as if it never happened. You can use the card's magic as soon as you draw the card or at any other time before you die.
Flames. A powerful devil becomes your enemy. The devil seeks your ruin and torments you, savoring your suffering before attempting to slay you. This enmity lasts until either you or the devil dies.
Fool. You have Disadvantage on D20 Tests for the next 72 hours. Draw another card; this draw doesn't count as one of your declared draws.
Gem. Twenty-five pieces of jewelry worth 2,000 GP each or fifty gems worth 1,000 GP each appear at your feet.
Jester. You have Advantage on D20 Tests for the next 72 hours, or you can draw two additional cards beyond your declared draws.
Key. A Rare or rarer magic weapon with which you are proficient appears on your person. The DM chooses the weapon.
Knight. You gain the service of a Knight, who magically appears in an unoccupied space you choose within 30 feet of yourself. The knight has the same alignment as you and serves you loyally until death, believing the two of you have been drawn together by fate. Work with your DM to create a name and backstory for this NPC. The DM can use a different stat block to represent the knight, as desired.
Moon. You gain the ability to cast *Wish* 1d3 times.
Puzzle. Permanently reduce your Intelligence or Wisdom by 1d4 + 1 (to a minimum score of 1). You can draw one additional card beyond your declared draws.
Rogue. An NPC of the DM's choice becomes Hostile toward you. You don't know the identity of this NPC until they or someone else reveals it. Nothing less than a *Wish* spell or divine intervention can end the NPC's hostility toward you.
Ruin. All forms of wealth that you carry or own, other than magic items, are lost to you. Portable property vanishes. Businesses, buildings, and land you own are lost in a way that alters reality the least. If you have a Bastion, it is destroyed by some calamity beyond your control. Any documentation that proves you should own something lost to this card also disappears.
Sage. At any time you choose within one year of drawing this card, you can ask a question in meditation and mentally receive a truthful answer to that question.
Skull. An **Avatar of Death** appears in an unoccupied space as close to you as possible. The avatar targets only you with its attacks, appearing as a ghostly skeleton clad in a tattered black robe and carrying a spectral scythe. The avatar disappears when it drops to 0 Hit Points or you die. If an ally of yours deals damage to the avatar, that ally summons another Avatar of Death. The new avatar appears in an unoccupied space as close to that ally as possible and targets only that ally with its attacks. You and your allies can each summon only one avatar as a consequence of this draw. A creature slain by an avatar can't be restored to life.
Star. Increase one of your ability scores by 2, to a maximum of 24.
Sun. A magic item (chosen by the DM) appears on your person. In addition, you gain 10 Temporary Hit Points daily at dawn until you die.
Talons. Every magic item you wear or carry disintegrates. Artifacts in your possession vanish instead.
Throne. You gain proficiency and Expertise in your choice of History, Insight, Intimidation, or Persuasion. In addition, you gain rightful ownership of a small keep somewhere in the world. However, the keep is currently home to one or more monsters, which must be cleared out before you can claim the keep as yours.
Void. Your soul is drawn from your body and contained in an object in a place of the DM's choice. One or more powerful beings guard the place. While your soul is trapped in this way, your body is inert, ceases aging, and requires no food, air, or water. A *Wish* spell can't return your soul to your body, but the spell reveals the location of the object that holds your soul. You draw no more cards.

They don't prevent the creature from passing through an interdimensional portal.
You and any creature you designate when you use the shackles can take a Utilize action to remove them. Once every 30 days, the bound creature can make a DC 30 Strength (Athletics) check. On a successful check, the creature breaks free and destroys the shackles.

Driftglobe

Wondrous Item, Uncommon

This small sphere of thick glass weighs 1 pound. If you are within 60 feet of it, you can command it to emanate light equivalent to that of the *Light* or *Daylight* spell (your choice). Once used, the *Daylight* effect can't be used again until the next dawn.

You can issue another command as a Magic action to make the illuminated globe rise into the air and float no more than 5 feet off the ground. The globe hovers in this way until you or another creature grasps it. If you move more than 60 feet from the hovering globe, it follows you until it is within 60 feet of you. It takes the shortest route to do so. If prevented from moving, the globe sinks gently to the ground and becomes inactive, and its light winks out.

Dungeon Master's Guide 2024

Dust of Disappearance

Wondrous Item, Uncommon

This powder resembles fine sand. There is enough of it for one use. When you take a Utilize action to throw the dust into the air, you and each creature and object within a 10-foot Emanation originating from you have the Invisible condition for 2d4 minutes. The duration is the same for all subjects, and the dust is consumed when its magic takes effect. Immediately after an affected creature makes an attack roll, deals damage, or casts a spell, the Invisible condition ends for that creature.

Dungeon Master's Guide 2024 (BR)

Dust of Dryness

Wondrous Item, Uncommon

This small packet contains 1d6 + 4 pinches of dust. As a Utilize action, you can sprinkle a pinch of the dust over water, turning up to a 15-foot Cube of water into one marble-sized pellet, which floats or rests near where the dust was sprinkled. The pellet's weight is negligible. A creature can take a Utilize action to smash the pellet against a hard surface, causing the pellet to shatter and release the water the dust absorbed. Doing so destroys the pellet and ends its magic.

As a Utilize action, you can sprinkle a pinch of the dust on an Elemental within 5 feet of yourself that is composed mostly of water (such as a **Water Elemental** or a **Water Weird**). Such a creature exposed to a pinch of the dust makes a DC 13 Constitution saving throw, taking 10d6 Necrotic damage on a failed save or half as much damage on a successful one.

Dungeon Master's Guide 2024 (BR)

Dust of Sneezing and Choking

Wondrous Item, Uncommon

On a failed save, a creature begins sneezing uncontrollably; it has the Incapacitated condition and is suffocating. The creature repeats the save at the end of each of its turns, ending the effect on itself on a success. The effect also ends on any creature targeted by a *Lesser Restoration* spell.

Efreeti Bottle

Wondrous Item, Very Rare

When you take a Magic action to remove the stopper of this painted brass bottle, a cloud of thick smoke flows out of it. At the end of your turn, the smoke disappears with a flash of harmless fire, and an Efreeti appears in an unoccupied space within 30 feet of you.

The first time the bottle is opened, the DM rolls on the following table to determine what happens.

1d10	Effect
1	The efreeti attacks you. After fighting for 5 rounds, the efreeti disappears, and the bottle loses its magic.
2–9	The efreeti understands your languages and obeys your commands for 1 hour, after which it returns to the bottle, and a new stopper contains it. The stopper can't be removed for 24 hours. The next two times the bottle is opened, the same effect occurs. If the bottle is opened a fourth time, the efreeti escapes and disappears, and the bottle loses its magic.
10	The efreeti understands your languages and can cast *Wish* once for you. It disappears when it grants the wish or after 1 hour, and the bottle loses its magic.

Energy Bow

Weapon (Longbow or Shortbow), Very Rare (Requires Attunement)

You gain a +1 bonus to attack rolls and damage rolls made with this magic weapon, which has no string. Each time you pull your arm back in a firing motion, a magical arrow made of golden energy appears nocked and ready to fire. An arrow produced by this weapon deals Force damage instead of Piercing damage on a hit, and it disappears after it hits or misses its target. Until it disappears, the arrow emits Bright Light in a 20-foot radius and Dim Light for an additional 20 feet.
This weapon has the following additional properties.
Arrow of Restraint. Whenever you use this weapon to make a ranged attack against a creature, you can try to restrain the target instead of dealing damage to it. If the arrow hits, the target must succeed on a DC 15 Strength saving throw or have the Restrained condition for 1 minute. As an action, a creature Restrained by an arrow can make a DC 20 Strength (Athletics) check to try to break the restraint, ending the effect on itself on a successful check.
Arrow of Transport. As a Magic action, you can fire one energy arrow from this weapon at a target you can see within 60 feet of yourself. The target can be either a willing Medium or smaller creature or an object that isn't being worn or carried, provided the object is small enough to fit inside a 5-foot Cube. The arrow teleports the target to an unoccupied space you can see within 10 feet of you.
Energy Ladder. As a Magic action, you can loose a flurry of energy arrows from this weapon at a wall up to 60 feet away from yourself. The arrows become glowing rungs that stick out of the wall, forming a magical ladder up to 60 feet long on the wall. This ladder lasts for 1 minute before disappearing.

Each minute the bottle remains open, the size of the Emanation increases by 10 feet until it reaches its maximum size of 120 feet.

Figurine of Wondrous Power

Wondrous Item, Rarity Varies

A *Figurine of Wondrous Power* is a statuette small enough to fit in a pocket. If you take a Magic action to throw the figurine to a point on the ground within 60 feet of yourself, the figurine becomes a living creature specified in the figurine's description below. If the space where the creature would appear is occupied by other creatures or objects, or if there isn't enough space for the creature, the figurine doesn't become a creature.

The creature is Friendly to you and your allies. It understands your languages, obeys your commands, and takes its turn immediately after you on your Initiative count. If you issue no commands, the creature defends itself but takes no other actions.

The creature exists for a duration specific to each figurine. At the end of the duration, the creature reverts to its figurine form. It reverts to a figurine early if its creature form drops to 0 Hit Points or if you take a Magic action while touching the creature to make it revert to figurine form. When the creature becomes a figurine again, its property can't be used again until a certain amount of time has passed, as specified in the figurine's description.

Bronze Griffon (Rare). This bronze statuette is of a griffon rampant. It can become a **Griffon** for up to 6 hours. Once it has been used, it can't be used again until 5 days have passed.

Ebony Fly (Rare). This ebony statuette, carved in the likeness of a horsefly, can become a **Giant Fly** for up to 12 hours and can be ridden as a mount. Once it has been used, it can't be used again until 2 days have passed.

Golden Lions (Rare). These gold statuettes of lions are always created in pairs. You can use one figurine or both simultaneously. Each can become a **Lion** for up to 1 hour. Once a lion has been used, it can't be used again until 7 days have passed.

Ivory Goats (Rare). These ivory statuettes of goats are always created in sets of three. Each goat looks unique and functions differently from the others. Their properties are as follows:

Goat of Terror. This figurine can become a **Giant Goat** for up to 3 hours. The goat can't attack, but you can (harmlessly) remove its horns and use them as weapons. One horn becomes a +1 Lance, and the other becomes a +2 Longsword. Removing a horn requires a Magic action, and the weapons disappear and the horns return when the goat reverts to figurine form. While you ride the goat, any Hostile creature that starts its turn within a 30-foot Emanation originating from the goat must succeed on a DC 15 Wisdom saving throw or have the Frightened condition for 1 minute, until you are no longer riding the goat, or until the goat reverts to figurine form. The Frightened creature repeats the save at the end of each of its turns, ending the effect on itself on a success. Once it succeeds on the save, a creature is immune to this effect for the next 24 hours. Once the figurine has been used, it can't be used again until 15 days have passed.

Goat of Traveling. This figurine can become a Large goat with the same statistics as a **Riding Horse**. It has 24 charges, and each hour or portion thereof it spends in goat form costs 1 charge. While it has charges, you can use it as often as you wish. When it runs out of charges, it reverts to a figurine and can't be used again until 7 days have passed, when it regains all expended charges.

Goat of Travail. This figurine can become a **Giant Goat** for up to 3 hours. Once it has been used, it can't be used again until 30 days have passed.

Marble Elephant (Rare). This marble statuette resembles a trumpeting elephant. It can become an **Elephant** for up to 24 hours. Once it has been used, it can't be used again until 7 days have passed.

Obsidian Steed (Very Rare). This polished obsidian horse can become a **Nightmare** for up to 24 hours. The nightmare fights only to defend itself. Once it has been used, it can't be used again until 5 days have passed.

The figurine has a 10 percent chance each time you use it to ignore your orders, including a command to revert to figurine form. If you mount the nightmare while it is ignoring your orders, you and the nightmare are instantly transported to a random location on the plane of

Hades, where the nightmare reverts to figurine form.
Onyx Dog (Rare). This onyx statuette of a dog can become a **Mastiff** for up to 6 hours. The mastiff has an Intelligence of 8 and can speak Common. It also has Blindsight with a range of 60 feet. Once it has been used, it can't be used again until 7 days have passed.
Serpentine Owl (Rare). This serpentine statuette of an owl can become a **Giant Owl** for up to 8 hours. The owl can communicate telepathically with you at any range if you and it are on the same plane of existence. Once it has been used, it can't be used again until 2 days have passed.
Silver Raven (Uncommon). This silver statuette of a raven can become a **Raven** for up to 12 hours. Once it has been used, it can't be used again until 2 days have passed. While in raven form, the figurine grants you the ability to cast Animal Messenger on it.

Second Command Word. The box unfolds into a Keelboat.
Third Command Word. The *Folding Boat* folds back into a box if no creatures are aboard. Any objects in the vessel that can't fit inside the box remain outside the box as it folds. Any objects in the vessel that can fit inside the box do so.
When the box becomes a vessel, its weight becomes that of a normal vessel its size, and anything that was stored in the box remains in the boat.
Statistics for the Rowboat and Keelboat appear in the *Player's Handbook*. If either vessel is reduced to 0 Hit Points, the *Folding Boat* is destroyed.

First Command Word. The gem sheds Bright Light in a 30-foot radius and Dim Light for an additional 30 feet. This effect doesn't expend a charge. It lasts until you take a Bonus Action to repeat the command word or until you use another function of the gem.
Second Command Word. You expend 1 charge and cause the gem to fire a brilliant beam of light at one creature you can see within 60 feet of yourself. The creature must succeed on a DC 15 Constitution saving throw or have the Blinded condition for 1 minute. The creature repeats the save at the end of each of its turns, ending the effect on itself on a success.
Third Command Word. You expend 5 charges and cause the gem to flare with intense light in a 30-foot Cone. Each creature in the Cone makes a saving throw as if struck by the beam created with the second command word.

This effect lasts as long as the hag maintains Concentration. Multiple hags in the coven can see through the *Hag Eye* simultaneously.

Dungeon Master's Guide 2024 (BR)

Hat of Many Spells

Wondrous Item, Very Rare (Requires Attunement by a Wizard)

This pointed hat has the following properties.

Spellcasting Focus. While holding the hat, you can use it as a Spellcasting Focus for your Wizard spells. Any spell you cast using the hat gains a special Somatic component: you must reach into the hat and "pull" the spell out of it.

Unknown Spell. While holding the hat, you can try to cast a level 1+ spell you don't know. The spell must be on the Wizard spell list, it must be of a level you can cast, and it can't have Material components costing more than 1,000 GP. Once you decide on the spell, you must expend a spell slot of the spell's level. Then, to determine whether you cast the spell, make an Intelligence (Arcana) check (DC 10 plus the spell's level). On a successful check, you cast the spell using its normal casting time, and you can't use this property again until you finish a Short or Long Rest. On a failed check, you fail to cast the spell and a random effect occurs instead, determined by rolling on the following table.

Any spell you cast from the hat uses your spell save DC and spell attack bonus.

1d100	Effect
01-50	You cast a random spell determined by rolling 1d10: on a 1, *Enlarge/Reduce* (enlarge effect); on a 2, *Enlarge/Reduce* (reduce effect); on a 3, *Faerie Fire*; on a 4, *Fireball*; on a 5, *Gust of Wind*; on a 6, *Invisibility* (cast on yourself); on a 7, *Lightning Bolt*; on an 8, *Phantasmal Force*; on a 9, *Polymorph*; on a 10, *Stinking Cloud*.
51-55	You have the Stunned condition until the end of your next turn, believing something awesome just happened.
56-60	A harmless swarm of butterflies fills a 10-foot Cube within 30 feet of yourself. The swarm disperses after 1 minute.
61-65	You pull a nonmagical object out of the hat. Roll 1d4 to determine the object: on a 1, a vial of Acid; on a 2, a flask of Alchemist's Fire; on a 3, a Crowbar; on a 4, a lit Torch.
66-70	You suffer a bout of "magic sickness" and have the Poisoned condition for 1 hour.
71-75	You have the Petrified condition until the end of your next turn.
76-80	You pull a nonmagical object out of the hat. Roll 1d4 to determine the object: on a 1, a Dagger; on a 2, a Rope with a Grappling Hook tied to one end; on a 3, a bag of Caltrops; on a 4, a gem worth 50 GP.
81-85	A creature appears in an unoccupied space as close to you as possible. The creature isn't under your control and acts as it normally would, and it disappears after 1 hour or when it drops to 0 Hit Points. Roll 1d4 to determine the creature: on a 1, a **Camel**; on a 2, a **Constrictor Snake**; on a 3, an **Elephant**; on a 4, a **Mule**.
86-90	A Hostile **Swarm of Bats** flies out of the hat, occupies your space, and attacks you.
91-95	A vertical, 10-foot-diameter, two-way portal to another plane of existence opens in an unoccupied space within 30 feet of you and remains open until the end of your next turn. The DM determines where it leads.
96-00	You pull a magic item out of the hat. Roll 1d6 to determine the item's rarity: on a 1-3, Common; on a 4-5, Uncommon; on a 6, Rare. The DM chooses the item, which disappears after 1 hour if it's not consumed or destroyed before then.

The cantrip must be on the Wizard spell list and have a casting time of an action, and you make a DC 10 Intelligence (Arcana) check. On a successful check, you cast the spell. On a failed check, the spell fails, and the action used to cast the spell is wasted. In either case, you can't use this property again until you finish a Long Rest.

Helm of Brilliance

Wondrous Item, Very Rare (Requires Attunement)

This helm is set with 1d10 diamonds, 2d10 rubies, 3d10 fire opals, and 4d10 opals. Any gem pried from the helm crumbles to dust. When all the gems are removed or destroyed, the helm loses its magic.

You gain the following benefits while wearing the helm.

Diamond Light. As long as it has at least one diamond, the helm emits a 30-foot Emanation. When at least one Undead is within that area, the Emanation is filled with Dim Light. Any Undead that starts its turn in that area takes 1d6 Radiant damage.

Fire Opal Flames. As long as the helm has at least one fire opal, you can take a Magic action to cause one weapon you are holding to burst into flames. The flames emit Bright Light in a 10-foot radius and Dim Light for an additional 10 feet. The flames are harmless to you and the weapon. When you hit with an attack using the blazing weapon, the target takes an extra 1d6 Fire damage. The flames last until you take a Bonus Action to extinguish them or until you drop or stow the weapon.

Ruby Resistance. As long as the helm has at least one ruby, you have Resistance to Fire damage.

Spells. You can cast one of the following spells (save DC 18), using one of the helm's gems of the specified type as a component: *Daylight* (opal), *Fireball* (fire opal), *Prismatic Spray* (diamond), or *Wall of Fire* (ruby). The gem is destroyed when the spell is cast and disappears from the helm.

Taking Fire Damage. Roll 1d20 if you are wearing the helm and take Fire damage as a result of failing a saving throw against a spell. On a roll of 1, the helm emits beams of light from its remaining gems and is then destroyed. Each creature within a 60-foot Emanation originating from you must succeed on a DC 17 Dexterity saving throw or be struck by a beam, taking Radiant damage equal to the number of gems in the helm.

Heward's Handy Haversack

Wondrous Item, Rare

This backpack has a central pouch and two side pouches, each of which is an extradimensional space. Each side pouch can hold up to 200 pounds of material, not exceeding a volume of 25 cubic feet. The central pouch can hold up to 500 pounds of material, not exceeding a volume of 64 cubic feet. The haversack always weighs 5 pounds, regardless of its contents.

Retrieving an item from the haversack requires a Utilize action or a Bonus Action (your choice). When you reach into the haversack for a specific item, the item is always magically on top.

If any of its pouches is overloaded, pierced, or torn, the haversack ruptures and is destroyed. If the haversack is destroyed, its contents are lost forever, although an Artifact always turns up again somewhere. If the haversack is turned inside out, its contents spill forth unharmed, and the haversack must be put right before it can be used again.

Each pouch of the haversack holds enough air for 10 minutes of breathing, divided by the number of breathing creatures inside.

Placing the haversack inside an extradimensional space created by a *Bag of Holding*, *Portable Hole*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate and not behind Total Cover is sucked through it and deposited in a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

Glass or crystal objects in the Cone that aren't being worn or carried take 10d8 Thunder damage.

Ioun Stone

Wondrous Item, Rarity Varies (Requires Attunement)

Roughly marble sized, *Ioun Stones* are named after Ioun, a god of knowledge and prophecy revered on some worlds. Many types of *Ioun Stones* exist, each type a distinct combination of shape and color.

When you take a Magic action to toss an *Ioun Stone* into the air, the stone orbits your head at a distance of 1d3 feet, conferring its benefit to you while doing so. You can have up to three *Ioun Stones* orbiting your head at the same time.

Each *Ioun Stone* orbiting your head is considered to be an object you are wearing. The orbiting stone avoids contact with other creatures and objects, adjusting its orbit to avoid collisions and thwarting all attempts by other creatures to attack or snatch it.

As a Utilize action, you can seize and stow any number of *Ioun Stones* orbiting your head. If your Attunement to an *Ioun Stone* ends while it's orbiting your head, the stone falls as though you had dropped it.

The type of stone determines its rarity and effects.

Absorption (Very Rare). While this pale lavender ellipsoid orbits your head, you can take a Reaction to cancel a spell of level 4 or lower cast by a creature you can see. A canceled spell has no effect, and any resources used to cast it are wasted. Once the stone has canceled 20 levels of spells, it burns out, turns dull gray, and loses its magic.

Agility (Very Rare). Your Dexterity increases by 2, to a maximum of 20, while this deep-red sphere orbits your head.

Awareness (Rare). While this dark-blue rhomboid orbits your head, you have Advantage on Initiative rolls and Wisdom (Perception) checks.

Fortitude (Very Rare). Your Constitution increases by 2, to a maximum of 20, while this pink rhomboid orbits your head.

Greater Absorption (Legendary). While this marbled lavender and green ellipsoid orbits your head, you can take a Reaction to cancel a spell of level 8 or lower cast by a creature you can see. A canceled spell has no effect, and any resources used to cast it are wasted. Once the stone has canceled 20 levels of spells, it burns out, turns dull gray, and loses its magic.

Insight (Very Rare). Your Wisdom increases by 2, to a maximum of 20, while this incandescent blue sphere orbits your head.

Intellect (Very Rare). Your Intelligence increases by 2, to a maximum of 20, while this marbled scarlet and blue sphere orbits your head.

Leadership (Very Rare). Your Charisma increases by 2, to a maximum of 20, while this marbled pink and green sphere orbits your head.

Mastery (Legendary). Your Proficiency Bonus increases by 1 while this pale green prism orbits your head.

Protection (Rare). You gain a +1 bonus to Armor Class while this dusty-rose prism orbits your head.

Regeneration (Legendary). You regain 15 Hit Points at the end of each hour this pearly white spindle orbits your head if you have at least 1 Hit Point.

Reserve (Rare). This vibrant purple prism stores spells cast into it, holding them until you use them. The stone can store up to 4 levels of spells at a time. When found, it contains 1d4 levels of stored spells chosen by the DM.

Any creature can cast a spell of level 1 through 4 into the stone by touching it as the spell is cast. The spell has no effect, other than to be stored in the stone. If the stone can't hold the spell, the spell is expended without effect. The level of the slot used to cast the spell determines how much space it uses.

While this stone orbits your head, you can cast any spell stored in it. The spell uses the slot level, spell save DC, spell attack bonus, and spellcasting ability of the original caster but is otherwise treated as if you cast the spell. The spell cast from the stone is no longer stored in it, freeing up space.

Strength (Very Rare). Your Strength increases by 2, to a maximum of 20, while this pale blue rhomboid orbits your head.

Sustenance (Rare). You don't need to eat or drink while this clear spindle orbits your head.

Iron Bands of Bilarro

Wondrous Item, Rare

This rusty iron sphere measures 3 inches in diameter and weighs 1 pound. You can take a Magic action to throw the sphere at a Huge or smaller creature you can see within 60 feet of yourself. As the sphere moves through the air, it opens into a tangle of metal bands.

Make a ranged attack roll with an attack bonus equal to your Dexterity modifier plus your Proficiency Bonus. On a hit, the target has the Restrained condition until you take a Bonus Action to issue a command that releases it. Doing so or missing with the attack causes the bands to contract and become a sphere once more.

A creature that can touch the bands, including the one Restrained, can take an action to make a DC 20 Strength (Athletics) check to break the iron bands. On a successful check, the item is destroyed, and the Restrained creature is freed. On a failed check, any further attempts made by that creature automatically fail until 24 hours have elapsed.

Once the bands are used, they can't be used again until the next dawn.

Dungeon Master's Guide 2024 (BR)

Iron Flask

Wondrous Item, Legendary

While holding this brass-stoppered iron flask, you can take a Magic action to target a creature that you can see within 60 feet of yourself. If the flask is empty and the target is native to a plane of existence other than the one you're on, the target must succeed on a DC 17 Wisdom saving throw or be trapped in the flask. If the target has been trapped by the flask before, it has Advantage on the save. Once trapped, a creature remains in the flask until released. The flask can hold only one creature at a time. A creature trapped in the flask doesn't age and doesn't need to breathe, eat, or drink.

You can take a Magic action to remove the flask's stopper and release the creature in the flask. The creature then obeys your commands for 1 hour, understanding those commands even if it doesn't know the language in which the commands are given. If you issue no commands or give the creature a command that is likely to result in its death or imprisonment, it defends itself but otherwise takes no actions. At the end of the duration, the creature acts in accordance with its normal disposition and alignment.

An *Identify* spell reveals if the flask contains a creature, but the only way to determine the type of creature is to open the flask. A newly discovered *Iron Flask* might already contain a creature chosen by the DM or determined randomly by rolling on the following table.

Weapon (Glaive, Greatsword, Longsword, Rapier, Scimitar, Sickle, or Shortsword), Legendary (Requires Attunement)

You gain a +1 bonus to attack rolls and damage rolls made with this magic weapon. While the weapon is on your person, you also gain a +1 bonus to saving throws.
Luck. If the weapon is on your person, you can call on its luck (no action required) to reroll one failed D20 Test if you don't have the Incapacitated condition. You must use the second roll. Once used, this property can't be used again until the next dawn.
Wish. The weapon has 1d3 charges. While holding it, you can expend 1 charge and cast *Wish* from it. Once used, this property can't be used again until the next dawn. The weapon loses this property if it has no charges.

Mace of Terror

Weapon (Mace), Rare (Requires Attunement)

This magic weapon has 3 charges and regains 1d3 expended charges daily at dawn. While holding the weapon, you can take a Magic action and expend 1 charge to release a wave of terror from it. Each creature of your choice within 30 feet of you must succeed on a DC 15 Wisdom saving throw or have the Frightened condition for 1 minute. While Frightened in this way, a creature must spend its turns trying to move as far away from you as it can, and it can't make Opportunity Attacks. For its action, it can use only the Dash action or try to escape from an effect that prevents it from moving. If it has nowhere it can move, the creature can take the Dodge action. At the end of each of its turns, a creature repeats the save, ending the effect on itself on a success.

Manual of Golems

Wondrous Item, Very Rare

This tome contains information and incantations necessary to make a particular type of golem. The DM chooses the type or determines it randomly by rolling on the accompanying table. To decipher and use the manual, you must be a spellcaster with at least two level 5 spell slots. A creature that can't use a *Manual of Golems* and attempts to read it takes 6d6 Psychic damage.

To create a golem, you must spend the time shown on the table, working without interruption with the manual at hand and resting no more than 8 hours per day. You must also pay the specified cost to purchase supplies.

Once you finish creating the golem, the book is consumed in eldritch flames. The golem becomes animate when the ashes of the manual are sprinkled on it. The golem is under your control, and it understands and obeys your commands.

Mirror of Life Trapping

Wondrous Item, Very Rare

When this 4-foot-tall, 2-foot-wide mirror is viewed indirectly, its surface shows faint images of creatures. The mirror weighs 50 pounds, and it has AC 11, HP 10, Immunity to Poison and Psychic damage, and Vulnerability to Bludgeoning damage. It shatters and is destroyed when reduced to 0 Hit Points.

If the mirror is hanging on a vertical surface and you are within 5 feet of it, you can take a Magic action and use a command word to activate it. It remains activated until you take a Magic action and repeat the command word to deactivate it.

Any creature other than you that sees its reflection in the activated mirror while within 30 feet of the mirror must succeed on a DC 15 Charisma saving throw or be trapped, along with anything it is wearing or carrying, in one of the mirror's twelve extradimensional cells. A creature that knows the mirror's nature makes the save with Advantage, and Constructs succeed on the save automatically.

An extradimensional cell is an infinite expanse filled with thick fog that reduces visibility to 10 feet. Creatures trapped in the mirror's cells don't age, and they don't need to eat, drink, or sleep. A creature trapped within a cell can escape using magic that permits planar travel. Otherwise, the creature is confined to the cell until freed.

If the mirror traps a creature but its twelve extradimensional cells are already occupied, the mirror frees one trapped creature at random to accommodate the new prisoner. A freed creature appears in an unoccupied space within sight of the mirror but facing away from it. If the mirror is shattered, all creatures it contains are freed and appear in unoccupied spaces near it.

While within 5 feet of the mirror, you can take a Magic action to name one creature trapped in it or call out a particular cell by number. The creature named or contained in the named cell appears as an image on the mirror's surface. You and the creature can then communicate.

In a similar way, you can take a Magic action and use a second command word to free one creature trapped in the mirror. The freed creature appears, along with its possessions, in the unoccupied space nearest to the mirror and facing away from it.

Placing the mirror inside an extradimensional space created by a *Bag of Holding*, *Portable Hole*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate and not behind Total Cover is sucked through it to a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

Weapon (Glaive, Greatsword, Longsword, Rapier, Scimitar, or Shortsword), Common

Dungeon Master's Guide 2024

Moonblade

Weapon (Greatsword, Longsword, Rapier, Scimitar, or Shortsword), Legendary (Requires Attunement by a Creature of the Weapon's Choice)

Of all the magic items created by elves, one of the most prized and jealously guarded is a *Moonblade*. In ancient times, nearly all elven noble houses claimed one such weapon. Over the centuries, some of these weapons have faded from the world, their magic lost as family lines have become extinct. Others have vanished with their bearers during great quests. Thus, only a few of these weapons remain.

Every *Moonblade* longs for a bearer whose disposition and goals are compatible with its own. If you try to attune to a *Moonblade* that doesn't want you as its bearer, the weapon not only rejects you but also places a curse on you, causing you to make D20 Tests with Disadvantage for 24 hours or until the curse is ended by a *Remove Curse* spell or similar magic. If you're accepted by the weapon and try to attune to it, you become attuned to it instantly, and a new rune appears on it. You remain attuned to the weapon until you die or the weapon is destroyed. A *Moonblade* functions like a nonmagical weapon of its kind for anyone other than its chosen bearer.

A *Moonblade* has one rune on it for each bearer it has willingly served (typically 1d6 + 1). The first rune grants a +1 bonus to attack rolls and damage rolls made with this magic weapon. Each rune beyond the first grants the *Moonblade* an additional property. The DM chooses each property or determines it randomly by rolling on the *Moonblade* Properties table.

Minor Property. In addition to its aforementioned properties, each *Moonblade* has a minor property determined by rolling on the Magic Item's Minor Property table.

Sentience. A *Moonblade* is a sentient weapon with an Intelligence of 12, a Wisdom of 10, and a Charisma of 12. It has hearing and Darkvision out to 120 feet. Its alignment matches that of its creator.

The weapon communicates by transmitting emotions, sending a tingling sensation through the wielder's hand when it wants to communicate something it has sensed. It can communicate through visions or dreams when the wielder is either in a trance or asleep.

Personality. A *Moonblade* has a personality similar to that of its creator. Once a *Moonblade* has decided on an owner, it believes that only that person should wield it, even if the bearer's alignment differs from that of the weapon's or the bearer's goals later clash with the weapon's goals.

1d100	Property
01-60	Increase the weapon's bonus to attack rolls and damage rolls by 1, to a maximum of +3. Reroll if the *Moonblade* already has a +3 bonus.
61-75	When you hit with an attack roll using the *Moonblade*, you deal an extra 1d6 Force damage. Each time the weapon gains this property after the first, the extra damage increases by 1d6, to a maximum of 3d6. Reroll if the *Moonblade* already deals an extra 3d6 Force damage on a hit.
76-80	The *Moonblade* gains Thrown with a normal range of 20 feet and a long range of 60 feet. Each time you throw the weapon, it flies back to your hand after the attack.
81-85	The *Moonblade* scores a Critical Hit on a roll of 19 or 20 on the d20.
86-95	You can take a Bonus Action to cause the *Moonblade* to flash brightly. Each other creature that is within 30 feet of you and not behind Total Cover must succeed on a DC 15 Constitution saving throw or have the Blinded condition for 1 minute. A creature repeats the save at the end of each of its turns, ending the effect on itself on a success. You can't use this property again until you finish a Short or Long Rest.
96-99	The *Moonblade* has the properties of a *Ring of Spell Storing*.
100	You can take a Magic action to conjure a spectral entity that resembles a shadowy elf if you don't already have one serving you. The entity appears in an unoccupied space within 120 feet of you. It uses the **Shadow** stat block with these changes: it is a Fey, has a Neutral alignment, and doesn't create new shadows. You control this entity, deciding how it acts and moves. It remains until it drops to 0 Hit Points or you dismiss it as a Magic action.

You can hurl multiple beads, or even the whole necklace, at one time. When you do so, increase the damage of the *Fireball* by 1d6 for each bead after the first (maximum 12d6).

Dungeon Master's Guide 2024 (BR)

Necklace of Prayer Beads

Wondrous Item, Rare (Requires Attunement by a Cleric, Druid, or Paladin)

This necklace has 1d4 + 2 magic beads made from aquamarine, black pearl, or topaz. It also has many nonmagical beads made from stones such as amber, bloodstone, citrine, coral, jade, pearl, or quartz. If a magic bead is removed from the necklace, that bead loses its magic.
Six types of magic beads exist. The DM decides the type of each bead on the necklace or determines it randomly by rolling on the table below. A necklace can have more than one bead of the same type. To use one, you must be wearing the necklace. Each bead contains a spell that you can cast from it as a Bonus Action (using your spell save DC if a save is necessary). Once a magic bead's spell is cast, that bead can't be used again until the next dawn.

1d20	Bead	Spell
1–6	Bead of Blessing	*Bless*
7–12	Bead of Curing	*Cure Wounds* (level 2 version)
13–16	Bead of Favor	*Greater Restoration*
17–18	Bead of Smiting	*Shining Smite*
19	Bead of Summons	*Guardian of Faith*
20	Bead of Wind Walking	*Wind Walk*

Life Stealing. The weapon has 1d8 + 1 charges. Constructs and Undead succeed on the save automatically. The weapon loses 1 charge if the creature is slain. When the weapon has no charges remaining, it loses this property.

Dungeon Master's Guide 2024 (BR)

Nolzur's Marvelous Pigments

Wondrous Item, Very Rare

This fine wooden box contains 1d4 pots of pigment and a brush (weighing 1 pound in total).
Using the brush and expending 1 pot of pigment, you can paint any number of three-dimensional objects and terrain features (such as walls, doors, trees, flowers, weapons, webs, and pits), provided these elements are all confined to a 20-foot Cube. The effort takes 10 minutes (regardless of the number of elements you create), during which time you must remain in the Cube, and requires Concentration. If your Concentration is broken or you leave the Cube before the work is done, all the painted elements vanish, and the pot of pigment is wasted.
When the work is done, all the painted objects and terrain features become real. Thus, painting a door on a wall creates an actual door, which can be opened to whatever is beyond. Painting a pit creates a real pit, the entire depth of which must lie within the 20-foot Cube.
No object created by a pot of pigment can have a value greater than 25 GP, and the total value of all objects created by a pot of pigment can't exceed 500 GP. If you paint objects of greater value (such as a large pile of gold), they look authentic, but close inspection reveals they're made from paste, cookies, or some other worthless material.
If you paint a form of energy such as fire or lightning, the energy dissipates as soon as you complete the painting, doing no harm.

Oathbow

Weapon (Longbow or Shortbow), Very Rare (Requires Attunement)

When you nock an arrow on this bow, it whispers in Elvish, "Swift defeat to my enemies." When you use this weapon to make a ranged attack, you can utter or sign the following command words: "Swift death to you who have wronged me." The target of your attack becomes your sworn enemy until it dies or until dawn 7 days later. You can have only one such sworn enemy at a time. When your sworn enemy dies, you can choose a new one after the next dawn.
When you make a ranged attack roll with this weapon against your sworn enemy, you have Advantage on the roll. In addition, your target gains no benefit from Half Cover or Three-Quarters Cover, and you suffer no Disadvantage due to long range. If the attack hits, your sworn enemy takes an extra 3d6 Piercing damage.
While your sworn enemy lives, you have Disadvantage on attack rolls with all other weapons.

Wondrous Item, Common

Dungeon Master's Guide 2024

Orb of Dragonkind

Wondrous Item, Artifact (Requires Attunement)

Long ago, in the Dragonlance setting, elves and humans waged a terrible war against chromatic dragons. When the world seemed doomed, the wizards of the Towers of High Sorcery came together and forged five *Orbs of Dragonkind* to help defeat the dragons. One orb was taken to each of the five towers, and there they were used to speed the war toward a victorious end. The wizards used the orbs to lure dragons to them, then destroyed the dragons with powerful magic.
As the Towers of High Sorcery fell in later ages, the orbs were destroyed or faded into legend, and only three are thought to survive. Their magic has been warped over the centuries. Their primary purpose of calling dragons still functions, but they also allow some measure of control over dragons.
Each orb contains the essence of an evil dragon, a presence that resents any attempt to coax magic from it. Those who try to wield an orb's magic but lack sufficient force of personality might find themselves under the orb's control.
An orb is an etched crystal globe about 10 inches in diameter. When used, it grows to about 20 inches in diameter, and mist swirls inside it.
While attuned to an orb, you can take a Magic action to peer into the orb's depths. You must then make a DC 15 Charisma saving throw. On a successful save, you control the orb for as long as you remain attuned to it. On a failed save, the orb imposes the Charmed condition on you for as long as you remain attuned to it.
While you are Charmed by the orb, you can't voluntarily end your Attunement to it, and the orb casts *Suggestion* on you at will (save DC 18), urging you to work toward the evil ends it desires. The dragon essence within the orb might want many things: the annihilation of a particular society or organization, freedom from the orb, to spread suffering in the world, to advance the worship of Tiamat, or something else the DM decides.
Random Properties. An *Orb of Dragonkind* has the following random properties (see the *Dungeon Master's Guide*):
• 2 minor beneficial properties
• 1 minor detrimental property
• 1 major detrimental property
Spells. The orb has 7 charges and regains 1d4 + 3 expended charges daily at dawn. If you control the orb, you can cast one of the spells on the following table from it. The table indicates how many charges you must expend to cast the spell.

Spell	Charge Cost
Cure Wounds (level 9 version)	4
Daylight	1
Death Ward	2
Detect Magic	0
Scrying (save DC 18)	3

Call Dragons. While you control the orb, you can take a Magic action to cause the orb to issue a telepathic call that extends in all directions for 40 miles. Chromatic dragons in range feel compelled to come to the orb as soon as possible by the most direct route. Dragon deities such as Tiamat are unaffected by this call. Chromatic dragons drawn to the orb might be Hostile toward you for compelling them against their will. Once you have used this property, it can't be used again for 1 hour.
Destroying an Orb. An *Orb of Dragonkind* has AC 20 and is destroyed if it takes damage from a *+3 Weapon* or a *Disintegrate* spell. Nothing else can harm it.

Pipes of Haunting

Wondrous Item, Uncommon

These pipes have 3 charges and regain 1d3 expended charges daily at dawn. You can take a Magic action to play them and expend 1 charge to create an eerie, spellbinding tune. Each creature of your choice within 30 feet of you must succeed on a DC 15 Wisdom saving throw or have the Frightened condition for 1 minute. A creature that fails the save repeats it at the end of each of its turns, ending the effect on itself on a success. A creature that succeeds on its save is immune to the effect of these pipes for 24 hours.

Dungeon Master's Guide 2024 (BR)

Pipes of the Sewers

Wondrous Item, Uncommon (Requires Attunement)

While these pipes are on your person, ordinary rats and giant rats are Indifferent toward you and won't attack you unless you threaten or harm them.

The pipes have 3 charges and regain 1d3 expended charges daily at dawn. If you play the pipes as a Magic action, you can take a Bonus Action to expend 1 to 3 charges, calling forth one **Swarm of Rats** with each expended charge if enough rats are within half a mile of you to be called in this fashion (as determined by the DM). If there aren't enough rats to form a swarm, the charge is wasted. Called swarms move toward the music by the shortest available route but aren't under your control otherwise.

Whenever a **Swarm of Rats** that isn't under another creature's control comes within 30 feet of you while you are playing the pipes, the swarm makes a DC 15 Wisdom saving throw. On a successful save, the swarm behaves as it normally would and can't be swayed by the pipes' music for the next 24 hours. On a failed save, the swarm is swayed by the pipes' music and becomes Friendly to you and your allies for as long as you continue to play the pipes each round as a Magic action. A Friendly swarm obeys your commands. If you issue no commands to a Friendly swarm, it defends itself but otherwise takes no actions. If a Friendly swarm starts its turn more than 30 feet away from you, your control over that swarm ends, and the swarm behaves as it normally would and can't be swayed by the pipes' music for the next 24 hours.

Dungeon Master's Guide 2024

Portable Hole

Wondrous Item, Rare

This fine black cloth, soft as silk, is folded up to the dimensions of a handkerchief. It unfolds into a circular sheet 6 feet in diameter.

You can take a Magic action to unfold a *Portable Hole* and place it on or against a solid surface, whereupon the *Portable Hole* creates an extradimensional hole 10 feet deep. The cylindrical space within the hole exists on a different plane of existence, so it can't be used to create open passages. Any creature inside an open *Portable Hole* can exit the hole by climbing out of it.

You can take a Magic action to close a *Portable Hole* by taking hold of the edges of the cloth and folding it up. Folding the cloth closes the hole, and any creatures or objects within remain in the extradimensional space. No matter what's in it, the hole weighs next to nothing.

If the hole is folded up, a creature within the hole's extradimensional space can take an action to make a DC 10 Strength (Athletics) check. On a successful check, the creature forces its way out and appears within 5 feet of the *Portable Hole*. A closed *Portable Hole* holds enough air for 1 hour of breathing, divided by the number of breathing creatures inside.

Placing a *Portable Hole* inside an extradimensional space created by a *Bag of Holding*, *Heward's Handy Haversack*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate and not behind Total Cover is sucked through it and deposited in a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

Wondrous Item, Rarity Varies

This object looks like a feather. Different types of feather tokens exist, each with a different single-use effect. The DM chooses the kind of token or determines it randomly by rolling on the table. The type of token determines its rarity.

Anchor (Uncommon). You can take a Magic action to touch the token to a boat or ship. For the next 24 hours, the vessel can't be moved by any means. Touching the token to the vessel again ends the effect. When the effect ends, the token disappears.

Bird (Rare). You can take a Magic action to toss the token 5 feet into the air. The token disappears and an enormous, multicolored bird takes its place. The bird has the statistics of a **Roc**, but it can't attack. It obeys your simple commands and can carry up to 500 pounds while flying at its maximum speed (16 miles per hour for a maximum of 144 miles per day, with a 1-hour rest for every 3 hours of flying) or 1,000 pounds at half that speed. The bird disappears after flying its maximum distance for a day or if it drops to 0 Hit Points. You can dismiss the bird as a Magic action.

Fan (Uncommon). If you are on a boat or ship, you can take a Magic action to toss the token up to 10 feet in the air. The token disappears, and a giant flapping fan takes its place. The fan floats and creates a strong wind. This wind can fill the sails of one ship, increasing its speed by 5 miles per hour for 8 hours. You can dismiss the fan as a Magic action.

Swan Boat (Rare). You can take a Magic action to touch the token to a body of water at least 60 feet in diameter. The token disappears, and a 50-foot-long, 20-foot-wide boat shaped like a swan takes its place. The boat is self-propelled and moves across water at a speed of 6 miles per hour. You can take a Magic action while on the boat to command it to move or to turn up to 90 degrees. The boat remains for 24 hours and then disappears. You can dismiss the boat as a Magic action.

Tree (Uncommon). You must be outdoors to use this token. You can take a Magic action to touch it to an unoccupied space on the ground. The token disappears, and in its place a nonmagical oak tree springs into existence. The tree is 60 feet tall and has a 5-foot-diameter trunk, and its branches at the top spread out in a 20-foot radius.

Whip (Rare). You can take a Magic action to throw the token to a point within 10 feet of yourself. The token disappears, and a floating whip takes its place. You can then take a Bonus Action to make a melee spell attack against a creature within 10 feet of the whip, with an attack bonus of +9. On a hit, the target takes 1d6 + 5 Force damage.

As a Bonus Action, you can direct the whip to fly up to 20 feet and repeat the attack against a creature within 10 feet of the whip. The whip disappears after 1 hour, when you take a Magic action to dismiss it, or when you die or have the Incapacitated condition.

While wearing this ring, you can cast any spell stored in it. Wondrous Item, Uncommon

This robe has cloth patches of various shapes and colors covering it. While wearing the robe, you can take a Magic action to detach one of the patches, causing it to become the object or creature it represents. Once the last patch is removed, the robe becomes an ordinary garment.

The robe has two of each of the following patches:

- Bullseye Lantern (filled and lit)

- Rope (coiled)
- Sack

In addition, the robe has 4d4 other patches. The DM chooses the patches or determines them randomly by rolling on the following table.

09–15	Silver coffer (1 foot long, 6 inches wide and deep) worth 500 GP

31–44	Wooden ladder (24 feet long)
45–51	**Riding Horse** with a Riding Saddle

Rod of Absorption

Rod, Very Rare (Requires Attunement)

While holding this rod, you can take a Reaction to absorb a spell that is targeting only you and doesn't create an area of effect. The absorbed spell's effect is canceled, and the spell's energy—not the spell itself—is stored in the rod. The energy has the same level as the spell when it was cast. A canceled spell dissipates with no effect, and any resources used to cast it are wasted. The rod can absorb and store up to 50 levels of energy over the course of its existence. Once the rod absorbs 50 levels of energy, it can't absorb more. If you are targeted by a spell that the rod can't store, the rod has no effect on that spell.

When you become attuned to the rod, you know how many levels of energy the rod has absorbed over the course of its existence and how many levels of spell energy it currently has stored.

If you are a spellcaster holding the rod, you can convert energy stored in it into spell slots to cast spells you have prepared or know. You can create spell slots only of a level equal to or lower than your own spell slots, up to a maximum of level 5. You use the stored levels in place of your slots but otherwise cast the spell as normal. For example, you can use 3 levels stored in the rod as a level 3 spell slot.

A newly found rod typically has 1d10 levels of spell energy stored in it. A rod that can no longer absorb spell energy and has no energy remaining becomes nonmagical.

Rod of Alertness

Rod, Very Rare (Requires Attunement)

This rod has the following properties.

Alertness. While holding the rod, you have Advantage on Wisdom (Perception) checks and on Initiative rolls.

Spells. While holding the rod, you can cast the following spells from it:

- *Detect Evil and Good*
- *Detect Magic*
- *Detect Poison and Disease*
- *See Invisibility*

Protective Aura. As a Magic action, you can plant the haft end of the rod in the ground, whereupon the rod's head sheds Bright Light in a 60-foot radius and Dim Light for an additional 60 feet. While in that Bright Light, you and your allies gain a +1 bonus to Armor Class and saving throws and can sense the location of any Invisible creature that is also in the Bright Light.

The rod's head stops glowing and the effect ends after 10 minutes or when a creature takes a Magic action to pull the rod from the ground. Once used, this property can't be used again until the next dawn.

Dungeon Master's Guide 2024 (BR)

Rod of Lordly Might

Rod, Legendary (Requires Attunement)

This rod has a flanged head, and it functions as a magic Mace that grants a +3 bonus to attack rolls and damage rolls made with it. The rod has properties associated with six different buttons that are set in a row along the haft. It has three other properties as well, detailed below.

Buttons. You can press one of the following buttons as a Bonus Action; a button's effect lasts until you push a different button or until you push the same button again, which causes the rod to revert to its normal form:

Button 1. A fiery blade sprouts from the end opposite the rod's flanged head. The flames shed Bright Light in a 40-foot radius and Dim Light for an additional 40 feet, and the blade functions as a magic Longsword or Shortsword (your choice) that deals an extra 2d6 Fire damage on a hit.

Button 2. The rod's flanged head folds down and two crescent-shaped blades spring out, transforming the rod into a magic Battleaxe that grants a +3 bonus to attack rolls and damage rolls made with it.

Button 3. The rod's flanged head folds down, a spear point springs from the rod's tip, and the rod's handle lengthens into a 6-foot haft, transforming the rod into a magic Spear that grants a +3 bonus to attack rolls and damage rolls made with it.

Button 4. The rod transforms into a climbing pole up to 50 feet long (you specify the length), though the rod's buttons remain within your reach. In surfaces as hard as granite, a spike at the bottom and three hooks at the top anchor the pole. Horizontal bars 3 inches long fold out from the sides, 1 foot apart, forming a ladder. The pole can bear up to 4,000 pounds. More weight or lack of solid anchoring causes the rod to revert to its normal form.

Button 5. The rod transforms into a handheld battering ram and grants its user a +10 bonus to Strength (Athletics) checks made to break through doors, barricades, and other barriers.

Button 6. The rod assumes or remains in its normal form and indicates magnetic north. (Nothing happens if this function of the rod is used in a location that has no magnetic north.) The rod also gives you knowledge of your approximate depth beneath the ground or your height above it.

Drain Life. When you hit a creature with a melee attack using the rod, you can force the target to make a DC 17 Constitution saving throw. On a failed save, the target takes an extra 4d6 Necrotic damage, and you regain a number of Hit Points equal to half that Necrotic damage. Once used, this property can't be used again until the next dawn.

Paralyze. When you hit a creature with a melee attack using the rod, you can force the target to make a DC 17 Constitution saving throw. On a failed save, the target has the Paralyzed condition for 1 minute. The target repeats the save at the end of each of its turns, ending the effect on a success. Once used, this property can't be used again until the next dawn.

Terrify. While holding the rod, you can take a Magic action to force each creature you can see within 30 feet of yourself to make a DC 17 Wisdom saving throw. On a failed save, a target has the Frightened condition for 1 minute. A Frightened target repeats the save at the end of each of its turns, ending the effect on itself on a success. Once used, this property can't be used again until the next dawn.

Dungeon Master's Guide 2024 (BR)

Rod of Resurrection

Rod, Legendary (Requires Attunement)

The rod has 5 charges. While you hold it, you can cast one of the following spells from it: *Heal* (expends 1 charge) or *Resurrection* (expends 5 charges).
The rod regains 1 expended charge daily at dawn. If you expend the last charge, roll 1d20. On a 1, the rod disappears in a harmless burst of radiance.

Dungeon Master's Guide 2024 (BR)

Rod of Rulership

Rod, Rare (Requires Attunement)

You can take a Magic action to present the rod and command obedience from each creature of your choice that you can see within 120 feet of yourself. Each target must succeed on a DC 15 Wisdom saving throw or have the Charmed condition for 8 hours. While Charmed in this way, the creature regards you as its trusted leader. If harmed by you or your allies or commanded to do something contrary to its nature, a target ceases to be Charmed in this way. Once used, this property can't be used again until the next dawn.

Dungeon Master's Guide 2024 (BR)

Rod of Security

Rod, Very Rare

While holding this rod, you can take a Magic action to activate it. The rod then instantly transports you and up to 199 other willing creatures you can see to a demiplane. You choose the form the demiplane takes. It could be a tranquil garden, a cheery tavern, an immense palace, a tropical island, a fantastic carnival, or whatever else you can imagine. Regardless of its nature, the demiplane contains enough water and food to sustain its visitors, and the demiplane's environment can't harm its occupants. Everything else that can be interacted with there can exist only there. For example, a flower picked from a garden there disappears if it is taken outside the demiplane.
For each hour spent in the demiplane, a visitor regains Hit Points as if it had spent 1 Hit Point Die. Also, creatures don't age while there, although time passes normally. Visitors can remain there for up to 200 days divided by the number of creatures present (round down).
When the time runs out or you take a Magic action to end the effect, all visitors reappear in the location they occupied when you activated the rod or an unoccupied space nearest that location. Once used, this property can't be used again until 10 days have passed.

Dungeon Master's Guide 2024 (BR)

Rod of the Pact Keeper

Rod, Uncommon (+1), Rare (+2), or Very Rare (+3) (Requires Attunement by a Warlock)

While holding this rod, you gain a bonus to spell attack rolls and to the saving throw DCs of your Warlock spells. The bonus is determined by the rod's rarity.
In addition, you can regain one spell slot as a Magic action while holding the rod. You can't use this property again until you finish a Long Rest.

Dungeon Master's Guide 2024

Rope of Climbing

Wondrous Item, Uncommon

This 60-foot length of rope can hold up to 3,000 pounds. While holding one end of the rope, you can take a Magic action to command the other end of the rope to animate and move toward a destination you choose, up to the rope's length away from you. That end moves 10 feet on your turn when you first command it and 10 feet at the start of each of your subsequent turns until reaching its destination or until you tell it to stop. You can also tell the rope to fasten itself securely to an object or to unfasten itself, to knot or unknot itself, or to coil itself for carrying.
If you tell the rope to knot, large knots appear at 1-foot intervals along the rope. While knotted, the rope shortens to a 50-foot length and grants Advantage on ability checks made to climb using the rope.
The rope has AC 20, HP 20, and Immunity to Poison and Psychic damage. It regains 1 Hit Point every 5 minutes as long as it has at least 1 Hit Point. If the rope drops to 0 Hit Points, it is destroyed.

Dungeon Master's Guide 2024 (BR)

Rope of Entanglement

Wondrous Item, Rare

This rope is 30 feet long. While holding one end of the rope, you can take a Magic action to command the other end to dart forward and entangle one creature you can see within 20 feet of yourself. The target must succeed on a DC 15 Dexterity saving throw or have the Restrained condition. You can release the target by letting go of your end of the rope (causing the rope to coil up in the target's space) or by using a Bonus Action to repeat the command (causing the rope to coil up in your hand).
A target Restrained by the rope can take an action to make its choice of a DC 15 Strength (Athletics) or Dexterity (Acrobatics) check. On a successful check, the target is no longer Restrained by the rope. If you're still holding onto the rope when a target escapes from it, you can take a Reaction to command the rope to coil up in your hand; otherwise, the rope coils up in the target's space.
The rope has AC 20, HP 20, and Immunity to Poison and Psychic damage. It regains 1 Hit Point every 5 minutes as long as it has at least 1 Hit Point. If the rope drops to 0 Hit Points, it is destroyed.

The scarab crumbles into powder and is destroyed when its last charge is expended.
Spell Resistance. You have Advantage on saving throws against spells.

Scroll of Protection

Scroll, Rare

Each *Scroll of Protection* works against creatures of a specific creature type chosen by the DM or determined by rolling on the following table.

1d100	Creature Type
01-10	Aberrations
11-15	Beasts
16-20	Celestials
21-25	Constructs
26-35	Dragons
36-45	Elementals
46-50	Humanoids
51-60	Fey
61-70	Fiends
71-75	Giants
76-80	Monstrosities
81-85	Oozes
86-90	Plants
91-00	Undead

Using a Magic action to read the scroll creates a 5-foot Emanation originating from you. For 5 minutes, creatures of the specified type can't enter or affect anything in the area. However, if you move in such a way that a creature of the specified type would be inside the area, the effect ends.
As a Magic action, a creature within 5 feet of the Emanation can attempt to overcome it, which forces the creature to make a DC 15 Charisma saving throw. On a successful save, the creature ceases to be affected by the Emanation.

Dungeon Master's Guide 2024

Scroll of Titan Summoning

Scroll, Legendary

When you take a Magic action to read this scroll, a particular titan named in the scroll appears in an unoccupied space on the ground or in water that you can see within 1 mile of yourself. The DM picks a suitable titan or determines it randomly by rolling on the table below.
The titan is Hostile toward all other creatures and disappears when it drops to 0 Hit Points. If the titan is summoned into a space that isn't large enough to contain it, the summoning fails, and the scroll is wasted.

1d100	Titan
01-15	Animal Lord
16-30	Blob of Annihilation
31-45	Colossus
46-60	Elemental Cataclysm
61-75	Empyrean
76-90	Kraken (a kraken requires a body of water large enough to contain it, or the summoning fails and the scroll is wasted)
91-100	Tarrasque

Sending Stones

Wondrous Item, Uncommon

Sending Stones come in pairs, with each stone carved to match the other so the pairing is easily recognized. While you touch one stone, you can cast *Sending* from it. The target is the bearer of the other stone. If no creature bears the other stone, you know that fact as soon as you use the stone, and you don't cast the spell.
Once *Sending* is cast using either stone, the stones can't be used again until the next dawn. If one of the stones in a pair is destroyed, the other one becomes nonmagical.

While holding this Shield, you have Resistance to damage from attacks made with Ranged weapons.
Curse. This Shield is cursed. Attuning to it curses you until you are targeted by a *Remove Curse* spell or similar magic. Removing the Shield fails to end the curse on you. Whenever an attack with a Ranged weapon targets a creature within 10 feet of you, the curse causes you to become the target instead.

Dungeon Master's Guide 2024 (BR)

Shield of the Cavalier

Armor (Shield), Very Rare (Requires Attunement)

While holding this Shield, you have a +2 bonus to Armor Class. This bonus is in addition to the Shield's normal bonus to AC.
The Shield has the following additional properties that you can use while holding it.
Forceful Bash. When you take the Attack action, you can make one of the attack rolls using the Shield against a target within 5 feet of yourself. Apply your Proficiency Bonus and Strength modifier to the attack roll. On a hit, the Shield deals Force damage to the target equal to 2d6 + 2 plus your Strength modifier, and if the target is a creature, you can push it up to 10 feet directly away from yourself. If the creature is your size or smaller, you can also knock it down, giving it the Prone condition.
Protective Field. As a Reaction, when you or an ally you can see within 5 feet of you is targeted by an attack or makes a saving throw against an area of effect, you can use the Shield to create an immobile 5-foot Emanation originating from you. When the Emanation appears, any creatures or objects not fully contained within it are pushed into the nearest unoccupied spaces outside it. The attack or area of effect that triggered the Reaction has no effect on creatures and objects inside the Emanation, which lasts as long as you maintain Concentration, up to 1 minute. Nothing can pass into or out of the Emanation. A creature or object inside the Emanation can't be damaged by attacks or effects originating from outside, nor can a creature inside the Emanation damage anything outside it. Once this property is used, it can't be used again until the next dawn.

Wondrous Item, Legendary

This viscous, milky-white substance can form a permanent adhesive bond between any two objects. It must be stored in a jar or flask that has been coated inside with *Oil of Slipperiness*. When found, a container contains 1d6 + 1 ounces.

One ounce of the glue can cover a 1-foot square surface. Applying an ounce of *Sovereign Glue* takes a Utilize action, and the applied glue takes 1 minute to set. Once it has done so, the bond it creates can be broken only by the application of *Universal Solvent* or *Oil of Etherealness*, or with a *Wish* spell.

Dungeon Master's Guide 2024 (BR)

Spell Scroll

Scroll, Rarity Varies

A *Spell Scroll* bears the words of a single spell, written in a mystical cipher. If the spell is on your spell list, you can read the scroll and cast its spell without Material components. Otherwise, the scroll is unintelligible. Casting the spell by reading the scroll requires the spell's normal casting time. Once the spell is cast, the scroll crumbles to dust. If the casting is interrupted, the scroll isn't lost.

If the spell is on your spell list but of a higher level than you can normally cast, you make an ability check using your spellcasting ability to determine whether you cast the spell. The DC equals 10 plus the spell's level. On a failed check, the spell disappears from the scroll with no other effect.

The level of the spell on the scroll determines the spell's saving throw DC and attack bonus, as well as the scroll's rarity, as shown in the following table.

Spell Level	Rarity	Save DC	Attack Bonus
Cantrip	Common	13	+5
1	Common	13	+5
2	Uncommon	13	+5
3	Uncommon	15	+7
4	Rare	15	+7
5	Rare	17	+9
6	Very Rare	17	+9
7	Very Rare	18	+10
8	Very Rare	18	+10
9	Legendary	19	+11

Copying a Scroll into a Spellbook. A Wizard spell on a *Spell Scroll* can be copied into a spellbook. When a spell is copied in this way, the copier must succeed on an Intelligence (Arcana) check with a DC equal to 10 plus the spell's level. On a successful check, the spell is copied. Whether the check succeeds or fails, the *Spell Scroll* is destroyed.

Dungeon Master's Guide 2024 (BR)

While holding this Shield, you have Advantage on saving throws against spells and other magical effects, and spell attack rolls have Disadvantage against you.

Dungeon Master's Guide 2024 (BR)

Sphere of Annihilation

Wondrous Item, Legendary

This 2-foot-diameter black sphere is a hole in the multiverse, hovering in space and stabilized by a magical field surrounding it.

The sphere obliterates all matter it passes through and all matter that passes through it. Artifacts are the exception. Unless an Artifact is susceptible to damage from a *Sphere of Annihilation*, it passes through the sphere unscathed. Anything else that touches the sphere but isn't wholly engulfed and obliterated by it takes 8d10 Force damage.

Controlling the Sphere. A *Sphere of Annihilation* is stationary until someone takes control of it. If you are within 60 feet of a sphere, you can take a Magic action to make a DC 25 Intelligence (Arcana) check. On a successful check, you control the sphere until the start of your next turn, and if it was under another creature's control, that creature loses control of the sphere. On a failed check, the sphere moves 10 feet toward you in a straight line.

While in control of the sphere, you can take a Bonus Action to cause it to move in one direction of your choice, up to a number of feet equal to 5 times your Intelligence modifier (minimum 5 feet). Any creature whose space the sphere enters must succeed on a DC 19 Dexterity saving throw or be touched by it, taking 8d10 Force damage. A creature reduced to 0 Hit Points by this damage is obliterated, leaving its possessions behind but no other physical remains.

Sphere Interactions. If the sphere comes into contact with a planar portal (such as that created by the *Gate* spell) or an extradimensional space (such as that within a *Portable Hole*), the DM determines randomly what happens using the following table.

1d100	Result
01–50	The sphere is destroyed.
51–85	The sphere moves through the portal or into the extradimensional space.
86–00	A spatial rift sends the sphere and each creature and object within 180 feet of the sphere to a random plane of existence.

On a successful save, the wielder takes 3d6 Psychic damage. On a failed save, the wielder is dominated by the sword, as if by the *Dominate Monster* spell, and the sword demands blood. The spell effect ends when the sword's demand is met.

Magic Weapon. You gain a +3 bonus to attack rolls and damage rolls made with the sword, which scores a Critical Hit on a roll of 19 or 20 on the d20 and deals an extra 2d10 Slashing damage to Undead.

Sentience. The *Sword of Kas* is a sentient Chaotic Evil weapon with an Intelligence of 15, a Wisdom of 13, and a Charisma of 16. It has hearing and Darkvision out to 120 feet.

The weapon communicates telepathically with its wielder and speaks Common.

Personality. The sword's purpose is to bring ruin to Vecna. Killing Vecna's worshipers, destroying the lich's works, and foiling his machinations all help to fulfill this goal.

The *Sword of Kas* also seeks to destroy anyone corrupted by the *Eye and Hand of Vecna*.

Destroying the Sword. A creature attuned to both the *Eye of Vecna* and the *Hand of Vecna* can use the Wish property of those combined Artifacts to unmake the *Sword of Kas*, provided the sword is within 30 feet of the spell's caster. 21–25	Nothing happens at the chosen point of origin. Instead, you have the Stunned condition until the start of your next turn, believing something awesome just happened.
26–30	You cast *Gust of Wind*. The Line created by the spell extends from you to the chosen point of origin.
31–35	Nothing happens at the chosen point of origin. Instead, you take 1d6 Psychic damage.
36–40	Heavy rain falls for 1 minute in a 120-foot-high, 60-foot-radius Cylinder centered on the chosen point of origin. During that time, the area of effect is Lightly Obscured.
41–45	A cloud of 600 oversized butterflies fills a 60-foot-high, 30-foot-radius Cylinder centered on the chosen point of origin. The butterflies remain for 10 minutes, during which time the area of effect is Heavily Obscured.
46–50	You cast *Lightning Bolt*. The Line created by the spell extends from you to the chosen point of origin.
51–55	The creature closest to the chosen point of origin is enlarged as if you had cast *Enlarge/Reduce* on it. If the target isn't you and can't be affected by that spell, you become the target instead.
56–60	A magically formed creature appears in an unoccupied space as close to the chosen point of origin as possible. 65–68	An object of the DM's choice disappears into the Ethereal Plane. The object must be neither worn nor carried, within 120 feet of the chosen point of origin, and no larger than 10 feet in any dimension. If there are no such objects in range, nothing happens.
69–72	Nothing happens at the chosen point of origin. Instead, you shrink as if you had cast *Enlarge/Reduce* on yourself and remain in that state for 1 minute.
73–77	Leaves grow from the creature nearest to the chosen point of origin. Unless they are picked off, the leaves turn brown and fall off after 24 hours.
78–82	Nothing happens at the chosen point of origin. Instead, a burst of colorful, shimmering light extends from you in a 30-foot Emanation. Each creature in the area must succeed on a DC 15 Constitution saving throw or have the Blinded condition for 1 minute. A creature repeats the save at the end of each of its turns, ending the effect on itself on a success.

Instead, a stream of 1d4 × 10 gems, each worth 1 GP, shoots from the wand's tip in a Line 30 feet long and 5 feet wide toward the chosen point of origin. Each gem deals 1 Bludgeoning damage, and the total damage of the gems is divided equally among all creatures in the Line.
